ABOUT ME

I am a passionate developer proficient in React and Next.js, delving into backend development and actively honing my Data Structures and Algorithms skills. My current role involves creating AI chatbot UIs utilizing Generative AI and GPT-3.5. I am also engaged in various AI projects and am currently learning Large Language Model training through Hugging Face. To explore my work and projects, please visit my digital portfolio [HERE](#).

SKILLS

React JS.....Intermediate	Javascript.....Intermediate	CSS.....Intermediate
NEXT JS.....Intermediate	HTML.....Intermediate	Python.....Beginner
Node JS.....Beginner	Mongo DB.....Intermediate	AWS.....Beginner

PROFESSIONAL EXPERIENCE

Yellow.ai

Aug 2021 - Present

Presales Engineer

I developed a JavaScript-based React application tailored to the client's needs and seamlessly incorporated an AI chatbot. I extended its functionality by integrating it with various communication channels, employing APIs to connect with other bots, and enhancing its capabilities through Generative AI and GPT-3.5, demonstrating prompt engineering.

Bizlem Pvt Ltd - Internship

Mar 2021 - Aug 2021

Business Analyst

Proficient in evaluating information from diverse sources, reconciling conflicts, breaking down complex information into details, and adeptly understanding and resolving customer queries.

The Sparks Foundation - Internship

Nov 2020 - Jan 2021

Data Science & Business Analytics

I was assigned a task that involved analyzing a dataset using Python and basic Machine Learning techniques to predict a student's marks and interpret the resulting reports.

LEARNING ACTIVITIES

- Finetuning Large Language Models
- Prompt Engineering
- Node JS
- DSA

PROJECTS

Creative Portfolio Design

I developed a dynamic portfolio utilizing Next.js, showcasing UI designs for Flipkart, Netflix, and Instagram, encompassing 5 unique interfaces. Demonstrated creativity and proficiency in UI/UX design. [HERE](#)

Nodejs || NEXTJS || CSS || Javascript

MERN Stack Project

I developed a MERN stack blog project and successfully deployed it on AWS, combining front-end and back-end technologies for a dynamic blogging experience. [HERE](#)

Nodejs || NEXTJS || CSS || Javascript || AWS

Search Algorithm using Gen AI

Developed a Python-based search algorithm using LangChain, enabling efficient document uploads and data querying, showcasing strong problem-solving and programming skills.

Python || Langchain || OpenAI

Precify Commerce

I've developed a shopping website powered by Redux for seamless shopping and a lightning-fast checkout experience. Ongoing enhancements for an even smoother experience. [HERE](#)

REACT || CSS

OMNIPEXEL

Developed a Python-based search algorithm using LangChain, enabling efficient document uploads and data querying, showcasing strong problem-solving and programming skills. [HERE](#)

REACT || JAVASCRIPT || CSS

CHARTEXT

Developed a Python-based search algorithm using LangChain, enabling efficient document uploads and data querying, showcasing strong problem-solving and programming skills. [HERE](#)

REACT || JAVASCRIPT || CSS

HONORS & AWARDS

YELLOW.AI HACKATHON

- Secured third place in the yellow.ai Hackathon by proposing an innovative use case - a chatbot that facilitates food donation from restaurants to nearby non-profits; collaborated with teammates to execute the idea, collecting all relevant details to streamline the process. [View Certificate](#)

LICENSES & CERTIFICATIONS

GOOGLE DATA ANALYTICS

Developed by Google, that include hands-on, practice-based assessments and are designed to prepare them for introductory-level roles in Data Analytics

CUSTOMER ANALYTICS

This course is related to the use of data to understand the composition, needs and satisfaction of the customer

DATA ANALYSIS WITH PYTHON

Here I have done data analysis regarding the marks of the student and several other questions and created a visualization

YELLOW.AI CERTIFIED PLATFORM

Learned platform features, query handling, and integration knowledge for effective chatbot creation and management.
